

**POTATO LAKE**  
**SPOONER, WISCONSIN**

---

**Client** / Washburn County Lakes & Rivers Association/  
Potato Lake Association

**Project Scope** / Baseline Analysis Study for Potato Lake to evaluate water quality. Concerns of lake residents included excessive weed growth and frequent algae blooms. The baseline analysis identified those areas requiring further investigation.

**Cooper Engineering Services:**

- Grant Application Preparation
- Watershed Analysis
- Historical Data Evaluation
- Watershed Land Use Survey
- Nutrient/Pollutant Load Analysis
- Aquatic Plant Identification
- Plant Community Survey
- Shoreline Vegetation and Stabilization Survey
- Chemical and Physical Data Analysis
- Lake Resident Questionnaire & Summary
- Presentation of Goals and Data to Residents
- Final Report Preparation
