

### ***OVERVIEW OF FUNDING SERVICES***

From design conception to construction closeout, Cooper Engineering offers project funding services in all of our service areas. Our funding coordinator monitors funding opportunities and assesses clients' needs to find a plausible funding outcome. Together, project managers and the funding coordinator keep Cooper Engineering clients informed of local, state, and federal funding opportunities. We monitor client needs keeping in mind infrastructure assessment and inventory, serving as the point of contact with all funding agencies to make the construction project proceed smoothly.
